PROFESSIONAL SUMMARY

Entry-level Web Developer with hands-on experience building web applications using HTML5, CSS3, JavaScript, Python and Django. Experienced in developing responsive frontend interfaces and integrating them with Django backend APIs. Familiar with Django models, API development, database integration, Git and GitHub. Seeking a Junior Web Developer or Python/Django Developer opportunity.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript

Backend: Python, Django

Database: SQL, Database Integration

API: Django APIs, Fetch API, JSON

Tools: Git, GitHub, VS Code

Web Development: Responsive Web Design, Backend Logic, API Integration

PROJECTS

E-Commerce Website | HTML, CSS, JavaScript, Python, Django

- Developed a responsive e-commerce website with product listings, category filtering, search, shopping cart, and checkout functionality.
- Built a Django backend with Product and Order models and API endpoints for retrieving products and creating customer orders.
- Integrated the frontend with Django APIs using JavaScript Fetch API and JSON data.
- Implemented checkout functionality to send customer and cart details to the Django backend and store orders in the database.
- Used Django Admin to manage products and view customer orders, with Local Storage used for shopping cart persistence.
- Maintained the project using Git and GitHub.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Structured portfolio content to present technical skills, projects, and professional information.
- Implemented responsive layouts for improved usability across desktop and mobile screens
- Deployed the website using GitHub Pages.
